

ON TO 2050

Local Pavement Management Plan Call for Projects

Webinar

February 5, 2018

Today's goals

- **Provide Background on Program**
- **Qualifications to Apply**
- **Go Over the Application Form**
- **Timeline**

Background

- **New Local STP Agreement**
 - Collect pavement condition data
- **Provide a New Benefit to Local Road Agencies**
- **Pilot Program**

Why a Pavement Management Plan (PMP)?

- Achieve Better Pavement Condition at Reduced Cost
- Extend the Life of Pavement
- Pavement Condition Targets

Qualifications to Apply

- **Eligible Applicants–Local Agencies**

- Maintains roads or programs federal funds

- **Eligible Projects**

- Initiating or updating PMP

- **Local Match**

- None
- CMAP will contract with venders

- **Evaluation and Selection**

- Ability of applicant to implement
- Geographic equity

Application

www.cmap.illinois.gov/mobility/roads/pavement-management/cfp

**Application form:
CMAP Pavement Management Plan Call for Projects**

DEADLINE: Noon on Friday, March 2, 2018

This application form is online at www.cmap.illinois.gov/mobility/roads/pavement-management/cfp. Submit the form by email to dferguson@cmap.illinois.gov. Upon receipt of application, you will receive an e-mail verifying that your application has been received.

Program Description

As part of CMAP's efforts to collect data on all Federal-aid local jurisdiction roads in the CMAP region, a pilot program was established to offer engineering services to municipalities and townships that will either initiate or update a local pavement management system. A pavement management plan can assist agencies to find the most cost effective way to address pavement needs and achieve pavement condition targets. Municipalities or townships may apply and an engineering firm selected by CMAP will provide the necessary services to complete a pavement management plan (PMP). The PMP will provide the public agency a document that describes the importance and types of pavement preservation, the current condition of pavement, scenarios evaluating the cost to meet different network level pavement conditions, and develop a capital plan based on the selected pavement condition/spending scenario. The PMP will help communicate to decision makers and the public the importance of pavement preservation and what pavement improvement projects to implement that will be the most cost effective to meet certain pavement condition targets. The public agency will not be responsible for any of the costs associated with the development of the PMP.

1. Name of Applicant

Agency: _____

2. Main Contact for Application

Name: _____

Title: _____

Phone number: _____

Email: _____

3. Multijurisdictional Group Application

Please list the members of the group:

*Applications submitted by multijurisdictional groups must include a letter indicating support from each relevant local government.

Application

1. Name of Applicant

Agency: _____

2. Main Contact for Application

Name: _____

Title: _____

Phone number: _____

Email: _____

3. Multijurisdictional Group Application

Please list the members of the group:

*Applications submitted by multijurisdictional groups must include a letter indicating support from each relevant local government.

Application

4. Project Type (check one)

- New Plan
- Update of Existing Plan

5. Previous Pavement Management Efforts

Please describe previous pavement management activities that you have undertaken in the past. Describe any actions you have taken to implement previous pavement management plans in your community and whether your efforts were successful or not.

6. Current Pavement Management Efforts

Do you currently maintain and update data in an established pavement management system?

- Yes No

Do you currently have an engineer on staff?

- Yes No

Do you currently prioritize pavement preservation projects?

- Yes No

Do you currently have a recorded history of pavement projects completed?

- Yes No

How are road repairs prioritized (for example, worst first, minimize lifecycle cost, advisory board selection, or other approach)?

Timeline

Date	Action
January 19	Call for projects released
February 5	Applicant Information Webinar
March 2	Applications due before noon via email to dferguson@cmap.illinois.gov
March-April	CMAP staff review applications and contact applicants with additional questions on their application
June	CMAP Board and MPO Policy Committee approves recommended projects; successful applicants notified
